

# Inner-Liner Sealer Instructions

---

These instructions apply to all 31Inc Inner-Liner Sealer.

**For more information call 1.800.438.3302**  
**For SDS Information Visit [www.31inc.com](http://www.31inc.com)**

## Directions

Apply **AFTER** repair is complete. Shake can well. Apply a light coat around edge of repair and at least 2" beyond repair. Be sure to cover all buffed areas of the inner-liner. Allow 5 minutes drying time.

*When installing repair units in agricultural tires that will contain calcium, coat the entire repair unit with inner-liner sealer after installation.*

For more information,  
call (800) 438-3302.
